least a counter movement by the Russians along some part of the line, especially if, as is thought, the Japanese have returned to their original tactics of making flanking movements from the mountains. The early advent of spring now makes possible operations in and from the mountainous districts.

For the past three weeks the Russians have suffered no material disturbance, with the exception of comparatively unimportant damage to the railroad and to a bridge near Kuanchia pass as the result of Japanese raids, aided, it is alleged, by Chinese

Since the receipt of news of the movement of an unidentified armed force of unknown numbers behind the Russian right wing, the Russians have taken measures for the purpose of minimizing the opportunities for brigands, in the belief that Chinese bandits are to some extent being organized and directed by the Japanese

Reports of activity at Vladivostok in anticipation of an attack on that place by the Japanese are confirmed, but the town continues in its accustomed gayety, in which the civil and military elements participate. The channels of business continue there in their normal conditions, notwithstanding the fact that the stringent patrol by the Japanese of the straits between the island of Sakhalin and the coast of Japan has completely interrupted the movements of shipping.

Supplies at Vladivostok, it is reported, are plentiful, though prices Are high. The naval attaches of foreign governments are leaving Vladivostok, by request of the Russian authorities.

Washington, Feb. 25.—In the house of representatives during the day the fight of many years waged against the appropriation of \$130,000 for rental of the old New York customs house, resulted in a victory, Mr. Hemenway of indiana, chairman of the committee on appropriations, being unable to muster sufficient strength to retain the provision in the bill. The opposition was led by Mr. Sulzer (N. Y.), supminority leader, both of whom descandal and in the interest of the Standard Oil company, which it was alleged was behind the National City bank, the purchaser of the building from the government. Although the bank was alleged to have bought the property for \$3,000,000 and to have credited the amount to the government, it developed that no title had passed to it and that in consequence it was paying no taxes to the state of New York. The failure of the goverament to give a deed was ascribed to be due to the influence of the Standard Oil company. The action in striking out the provision was on a strictly party vote.

Recognition of Japan's influence in

Korea as supreme. Port Arthur to be retained by Japan, but to be opened to all the nations on an equal footing.

The subject of indemnity, which seems to have been troubling Russia most, was not mentioned, the inference being that Japan considered it a minor question over which she will not haggle. Vladivostok was referred to in a way which indicated that Japan was willing that Russia should retain that port and use it as the eastern terminus of the Siberian railroad.

IMPORTANT OPERATIONS.

Believed to Be in Progress in the Mountain Region.

St. Petersburg, Feb. 25.-Official dispatches just given out dispose of the rumor of General Kuropatkin's retirement from the Shakhe river, but, taken in connection with a press dispatch from Tsinkhetchen, show that operations of an important nature are in progress in the mountain region to the eastward.

The movement was precipitated by the Russians, who last week sent out two divisions and occupied well advanced positions. The Japanese attacked these positions in force. The Russians retired slowly, fighting, and Thursday evening were driven within their fortified line. The latest dispatches prophesied heavy fighting

For the past three weeks the Russians have suffered no material disturbance, with the exception of comparatively unimportant damage to the railroad and to a bridge near Kuanchia pass as the result of Japanese raids, aided, it is alleged, by Chinese

Since the receipt of news of the movement of an unidentified armed force of unknown numbers behind the Russian right wing, the Russians have taken measures for the purpose of minimizing the opportunities for brigands, in the belief that Chinese bandits are to some extent being organized and directed by the Japanese

Reports of activity at Vladivostok in anticipation of an attack on that place by the Japanese are confirmed, but the town continues in its accustomed gayety, in which the civil and military elements participate. The channels of business continue there in their normal conditions, notwithstanding the fact that the stringent patrol by the Japanese of the straits between the island of Sakhalin and the coast of Japan has completely interrupted the movements of shipping.

Supplies at Vladivostok, it is reported, are plentiful, though prices are high. The naval attaches of foreign governments are leaving Vladivostok, by request of the Russian au-

PROPOSAL FOR PEACE Apponents of Appropriation for Rent of New York Custom House Win.

> Washington, Feb. 25.-In the house of representatives during the day the fight of many years waged against the appropriation of \$130,000 for rental of the old New York customs house, resulted in a victory, Mr. Hemenway of indiana, chairman of the committee on appropriations, being unable to muster sufficient strength to retain the provision in the bill. The opposition was led by Mr. Sulzer (N. Y.), sup-Standard Oil company, which it was alleged was behind the National City from the government. Although the bank was alleged to have bought the property for \$3,000,000 and to have credited the amount to the government, it developed that no title had passed to it and that in consequence it was paying no taxes to the state of New York. The failure of the goverament to give a deed was ascribed to be due to the influence of the Standard Oil company. The action in striking out the provision was on a strictly party vote.

GUILTY OF MANSLAUGHTER.

Last Survivor of Custer Massacre Convicted in New York.

New York, Feb. 25 .- William Mc-Gee, said to be the last white survivor of the Custer massacre on the Little Big Horn river, was found guilty of manslaughter in the first degree here at night and was remanded for sentence. He was accused of fatally stabbing Frank Mitchell, his roommate, on Dec. 10, last, after a quarrel. McGee alleged that the stabbing was in self-defense.

After recovering from the wounds received in the Custer massacre, Mc-Gee served with General Miles in the Nez Perces campaign.

JEALOUSY CAUSES TRAGEDY.

as they did several years ago in the provinces of Saratoff and Poltava, when almost complete anarchy reigned for some time.

Among the reservists agitators are spreading the story that the war is over. A case is cited which occurred a fortnight ago at Riazan, where 200 reservists who had been called in flatly told the officer they did not intend to serve.

"The war is over," said the leader, 'we know you want to make money out of a contract for feeding us. We will not serve," and off they marched. An instance is also given of reservists who actually left a railway train after they had started for the front.

Private reports also leave no room for doubt that the strike in the whole region below Moscow are almost entirely political in character. The situation generally in the south of Russia is becoming worse instead of better and contains many factors which are causing the authorities the greatest alarm. Wine of Cardui is the most successful menstrual regulator. By regulating menstruation, Wine of Cardui banishes inflammation from the entire female organism and the strengthened ligaments bring the organs back to their proper place. This is what Wine of Cardui did for Mrs. Nirdlinger. It banished the racking pains and burning inflammation and brought her relief. She was restored to health and strength and gives Wine of Cardui the credit of making her able to become a happy mother. This medicine equips a woman for every duty of wifehood and motherhood. There are many suffering women who think that health can never be theirs because they cannot secure the services of a great specialist, but we want to say right here that while Mrs. Nirdlinger lives in Philidelphia, a great medical center, she depended on Wine of Cardui for a cure and she was cured. Wine of Cardui is the most successful menstrual regulator. By regulating menstruation, Wine of Cardui banishes inflammation from the entire female organism and the strengthened ligaments bring the organs back to their proper place. This is what Wine of Cardui did for Mrs. Nirdlinger. It banished the racking pains and burning inflammation and brought her relief. She was restored to health and strength and gives Wine of Cardui the credit of making her able to become a happy mother. This medicine equips a woman for every duty of wifehood and motherhood. There are many suffering women who think that health can never be theirs because they cannot secure the services of a great specialist, but we want to say right here that while Mrs. Nirdlinger lives in Philidelphia, a great medical center, she depended on Wine of Cardui for a cure and she was cured. # Trials of Motherhood

I suffered for nine years with ovarian troubles making life a burden to myself as well as to my family. During that time I had two miscarriages and although we longed for a child to bless our home this seemed impossible. I had constant racking bearing-down pains in the pelvic organs and a pulling through my limbs with frequent headaches. I felt sick at my stomach and vomited frequently and no medicine helped me until I tried Wine of Cardui.

CHAPLAIN, ST. ANDREW'S ASSOCIATION.

Wine of Cardui. Wine of Cardui.

Then my general health improved, the pains gradually lessened and after 18 weeks I was well. I am now the happy mother of a boy eighteen months old and my usband joins me in sending heartfelt thanks to you for your splendid medicine.

Without, I would have been a childless, instead of a happy and well mother.

CHARLANN ST. ANDREW'S ASSOCIATION.

Wine of Cardui is the most successful menstrual regulator. By regulating menstruation, Wine of Cardui banishes inflammation from the entire female organism and the strengthened ligaments bring the organs back to their proper place. This is what Wine of Cardui did for Mrs. Nirdlinger. It banished the racking pains and burning inflammation and brought her relief. She was restored to health and strength and gives Wine of Cardui the credit of making her able to become a happy mother. This medicine equips a woman for every duty of wifehood and motherhood. There are many suffering women who think that health can prove be their because they fering women who think that health can never be theirs because they cannot secure the services of a great specialist, but we want to say right here that while Mrs. Nirdlinger lives in Philidelphia, a great medical center, she depended on Wine of Cardui for a cure and she was cured. This same medicine is within your reach. Will you

# The Dam Will Have to Be Raised a Foot Before Enough Head Can Be Secured.

There is a matter which the Commerial Club can take hold of and do some good for the city in connection with the Northwest Paper company property in this city. There is some talk that there will be something doing in a short time in the vicinity of the dam and that action may be taken shortly to ascertain the OFFICE, WALVERMAN BLOCK most advantageous location for a large paper mill. THE DISPATCH reporter had a conversation with one who is well acquainted with the conditions and he stated that he thought something would be done this summer in this direction, but he stated also that there was another question which would have to be settled first and that is the matter of more power for a paper mill. The dam at its present status will not meet the requirements, but will have to be raised a foot before enough head can be secured. This will also mean that some action will have to be taken regarding the securing of the necessary overflowage rights from the owners of the land. The raising of the dam a foot would raise the water a foot for twenty miles up riv-

The pulp mill here has been a great time since the cold weather set in the mill will, if this weather continues, shut down from six o'clock tomorrow morning until seven o'clock Monday morning. The machinery has been running continuously, night and day for nearly four months and much repair work has accumulated which must be attended to. During cold weather it is impossible to shut down because of the danger from ice in the flume, but with the present soft weather it will be possible to give the hands a Sunday once more and do the needed work on the plant. In summer the machinery is started at 7 o'clock Monday morning and not stopped until six o'clock Sunday morning. The run has been very satisfactory to the management as they have turned out about thirty tons of pulp daily.

# Concerning Subscriptions.

There seems to be a misapprehension on the part of some as regards the subscription rates on THE DAILY DISPATCH. The rate of \$4 a year or \$1 for three months, is an advance rate and placed thereon in order to save the expense of collection and avoid the loss of accounts. Some, however, seem to think that they can pay at the end of the year and are then entitled to the paper for 84. A moment's thought will show that such a course is simply putting a premium on not paying and would if permitted result in the loss to us of many accounts of nearly or quite a year each. Parties wishing the yearly rate must pay in advance or promptly on the presentation of account by the collector. tf

# IN SOCIAL CIRCLES

A most delightful social affair was the dancing party given last evening in Elk hall by Messrs. Wilfred N. Purdy, Fred L. Sanborn, Howard G. Ingersoll, Walter F. Wieland, Maurice B. Mantor, Carl J. Wright, Clyde Parker and C. Harry Patek. It may be said without the least exageration that Elk hall never presented a more brilliant or beautiful appearance, the scheme of decoration throughout being such that it could not help but appeal to the better tastes and the most American ideas. The colors used throughout were red, white and blue, and the event might appropriately be called a "flag party." The large rooms were stripped of their everyday decorations and in their places were hung flags, until from every corner and nook there seemed to droop the colors of old glory. On the south wall large flags were draped, the ordinary shades were removed from the windows and flags hung in their place. Long streamers of red, white and blue were strung from the chandelier to the corners of the room and the archway between the large banquet room and the very soon with the work. It is said that | main hall was profusely entwined with red, white and blue bunting and flags. At the east end of the banquet hall a very unique idea was worked out in a den which was strictly American in conception. The walls in this corner were success, as evidence that for the first hung with blankets and these were decorated with Indian heads, arrows, deer heads and all other appropriate designs of a distinctively American specis. Graham's orchestra furnished the music for the occasion and a very unique arrangement for it had been made. A colonial porch design was erected, the pillars being entwined with American flags. Over the roof of the porch there was a net work upon which were caught a myriad of small flags of the different nations of the world. An American eagle perched just over the entrance of the porch. At the west end of this room was placed the refreshment board which was presided over by five handsome little maids, Miss Irma Parker, Winnie Wright, Bessie Wieland, Geraldine Fleming and Hildegrade Snyder. They served frappe and a few delaiacies. This corner had been uniquely decorated in Japanese effect.

IMPORTANT MATTER TO SETTLE

## The Dam Will Have to Be Raised a Foot Before Enough Head Can Be Secured.

There is a matter which the Commercial Club can take hold of and do some good for the city in connection with the Northwest Paper company property in this city. There is some talk that there will be something doing in a short time in the vicinity of the dam and that action may be taken shortly to ascertain the most advantageous location for a large paper mill. THE DISPATCH reporter had a conversation with one who is well acquainted with the conditions and he stated that he thought something would be done this summer in this direction, but he stated also that there was another question which would have to be settled first and that is the matter of more power for a paper mill. The dam at its present status will not meet the requirements, but will have to be raised a foot before enough head can be secured. This will also mean that some action will have to be taken regarding the securing of the necessary overflowage rights from the owners of the land. The raising of the dam a foot would raise the water a foot for twenty miles up riv-

If the proper arrangements can be made, however, it is thought that the Northwest Paper company will proceed | tween the large banquet room and the very soon with the work. It is said that main hall was profusely entwined with when they do build a paper mill here it will be of the most modern type, of large capacity, and over 400pe ople will be em-

The pulp mill here has been a great success, as evidence that for the first time since the cold weather set in the mill will, if this weather continues, shut down from six o'clock tomorrow morning until seven o'clock Monday morning. The machinery has been running continuously, night and day for nearly four months and much repair work has accumulated which must be attended to. During cold weather it is impossible to shut down because of the danger from ice in the flume, but with the present soft weather it will be possible to give the hands a Sunday once more and do the needed work on the plant. In summer the machinery is started at 7 o'clock room was placed the refreshment board Monday morning and not stopped until which was presided over by five very six o'clock Sunday morning. The run has been very satisfactory to the management as they have turned out about thirty tons of pulp daily.

# RASMUSSEN HERE AGAIN

### Looking Over the City with an Object of Opening a Bank. Said to Be a Gentl man of Means.

S. J. Rasmussen, of Thief River Falls, s in the city again making further inquiries and investigations as to the advisability of starting a third bank. THE DISPATCH had an article some time ago regarding the probability of Mr. Rasmussen and others starting a bank in the Mahlum block. Mr. Rasmussen is very favorably impressed and the probability is that he will remain in Brainerd. It is understood that if such a move is taken the bank will not be opened before May 1.

The most reliable preparation for kid ney troubles on the market is Foley's Kidney Cure. H. P. Dunn & Co.

# Concerning Subscriptions.

There seems to be a misapprehension on the part of some as regards the subscription rates on THE DAILY DISPATCH. The rate of \$4 a year or \$1 for three months, is an advance rate and placed thereon in order to save the expense of collection and avoid the loss of accounts. Some, however, seem to think that they can pay at the end of the year and are then entitled to the paper for 84. A moment's thought will show that such a course is simply putting a premium on not paying and would if permitted result in the loss to us of many accounts of nearly or quite a year each. Parties wishing the yearly rate must pay in advance or promptly on the presentation of account by the collector. tf

# IN SOCIAL CIRCLES

A most delightful social affair was the dancing party given last evening in Elk hall by Messrs. Wilfred N. Purdy, Fred L. Sanborn, Howard G. Ingersoll, Walter F. Wieland, Maurice B. Mantor, Carl J. Wright, Clyde Parker and C. Harry Patek. It may be said without the least exageration that Elk hall never presented a more brilliant or beautiful appearance, the scheme of decoration throughout being such that it could not help but appeal to the better tastes and the most American ideas. The colors used throughout were red, white and blue, and the event might appropriately be called a "flag party." The large rooms were stripped of their everyday decorations and in their places were hung flags, until from every corner and nook there seemed to droop the colors of old glory. On the south wall large flags were draped, the ordinary shades were removed from the windows and flags hung in their place. Long streamers of red, white and blue were strung from the chandelier to the corners of the room and the archway bered, white and blue bunting and flags. At the east end of the banquet hall a very unique idea was worked out in a den which was strictly American in conception. The walls in this corner were hung with blankets and these were decorated with Indian heads, arrows, deer heads and all other appropriate designs of a distinctively American specis. Graham's orchestra furnished the music for the occasion and a very unique arrangement for it had been made. A colonial porch design was erected, the pillars being entwined with American flags. Over the roof of the porch there was a net work upon which were caught a myriad of small flags of the different nations of the world. An American eagle perched just over the entrance of the porch. At the west end of this handsome little maids, Miss Irma Park er, Winnie Wright, Bessie Wieland, Geraldine Fleming and Hildegrade Snyder. They served frappe and a few delaiacies. This corner had been uniquely decorated in Japanese effect. There were about 150 guests present & I.

and dancing was enjoyed until a late hour. The party was one of the prettiest ever seen in Brainerd and the young hosts are to be congratulated.

Miss Hallie King entertained a large number of her little lady friends last evenening to meet Miss Eunice Atwood, of Little Falls. The evening was pleasantly spent in playing games, etc. Refreshments were served.

The members of Brainerd Homestead No. 602, called on Judge J. H. Warner at his home in East Brainerd last evening and gave him a genuine surprise. "Resolved, That the attorney general been taken by him to determine wheth er or not steps have been taken by him to determine whether or not the said ed for violation of the United States anti-trust law of July 2, 1890, or other United States statutes against trusts and combines in restraint of trade."

A preamble says such prosecution vas petitioned for in 1901 and alleges conspiracy between the Carnegie and Bethlehem Steel companies to sell armor plate to the government for \$445 to \$520 per ton, whereas the cost was but \$197. In spite of the fact that identical, the present secretary of the navy has just awarded contracts t them at \$453 per ton when an inde pendent company outside of the trust had offered to furnish exactly the same armor for \$398 per ton, "indicating the powerful influence which the aforesaid armor plate trust has acquired over the government and officials of the United States."

The resolution was referred to the judiciary committee.

TRAIN DELAYED SEVERAL HOURS ON ACCOUNT OF A WRECK

In the spring of 1894, while in Austin, Tex., where I had been sent for my health, I was sitting in front of the Driscoll hotel when from a carriage hastily driven from the depot, two gentlemen emerged. One was an elderly, welldressed gentleman of about 90; his face was swollen almost twice its natural size, his eyes and mouth almost closed. The other gentleman, who was his attendant, stopped to ask me if I could refer him to a first-class physician. I reccommended him to the one who was then attending me, and at the same time asked him about the disease of his friend. In reply he stated that about three weeks before he had been bitten by some kind of a spider, and while they had tried the skill of the best and most noted physicians in their section of the country, none had been of any advantage to him. # THE LATEST ELECTION BILL.

Would Give the Voters the Final Say First Baptist church: Morning servin Making Nominations. ice at 10:30; evening service at 7:30; Young people's meeting at 6:30; all week-

The latest election bill, designed to bring state officers under the direct primary system, was offered in the house Friday by Ole Peterson of Nicollet county, who proposes to let the people have the final say in the choice of candidates for a state office.

Under the terms of the Peterson bill political caucuses are to be held as of old, that of the counties on the third Friday in June. The county conventions are to be held on the third Saturdays of June, and the state convention on the fourth Friday of June. At these conventions candidates for the county and state offices are to be named, three to each office. These are to be taken in the order of the vote cast. At the primary election, which follows these three candidates are to be voted on and the one having the highest vote is to be the nominee of the party.

ABOUT ARMOR PLATE TRUST.

Missouri Congressman Asks for Some Information.

Washington, Feb. 25 .- Representative Vandiver of Missouri daring the day introduced the following resolution in the house:

"Resolved. That the attorney general inform the house at his earliest convenience whether or not any proceedor criminal, against the armor plate

"Resolved, That the attorney general also inform the house what steps have been taken by him to determine whether or not steps have been taken by him This board is to consist of three mem- to determine whether or not the said bers, each to serve three years. All armor plate trust should be prosecuted for violation of the United States anti-trust law of July 2, 1890, or other United States statutes against trusts and combines in restraint of trade."

A preamble says such prosecution was petitioned for in 1901 and alleges conspiracy between the Carnegie and Bethlehem Steel companies to sell armor plate to the government for \$445 to \$520 per ton, whereas the cost was but \$197. In spite of the fact that he bids of these two companies were identical, the present secretary of the navy has just awarded contracts to them at \$453 per ton when an inde pendent company outside of the trust had offered to furnish exactly the same armor for \$398 per ton, "indicating the powerful influence which the aforesaid armor plate trust has acquired over the government and officials of the United States."

The resolution was referred to the judiciary committee.
